PROFILE

For the past ten years, I have been working in Retail Marketing in Ukraine, where I have gained valuable experience in customer service, sales, and marketing. I am now eager to take on a new challenge and to apply my skills and knowledge to a new role as a software developer.

I am a motivated and dedicated professional, with a passion for learning and continuous improvement. I am excited about the prospect of working with team and contributing to company's success.

I currently live in Berlin and hold a valid work permit for Germany. As I am still enrolled in the Bootcamp until the end of April, I will be available to start working from May, 2023.
